

VOLUNTEERING FOR JUNIOR ACHIEVEMENT

About Junior Achievement

Junior Achievement (JA) is the nation's largest organization dedicated to giving young people the knowledge and skills they need to own their economic success, plan for their future, and make smart academic and economic choices.

Junior Achievement's programs—in the core content areas of career and work readiness, entrepreneurship, and financial literacy—ignite the spark in young people to experience and realize the opportunities and realities of work and life in the 21st century.

Benefits of Volunteer Engagement with JA

- Direct and immediate impact on the local community
- Team-building/morale-boosting events for organizations
- Skill-building: teamwork, presentation skills, and leadership
- Turn-key experience; JA provides the school liaison, volunteer recruitment tools, volunteer training, and classroom materials
- Volunteer opportunities include classroom program delivery, special event participation, and local participation on the Board of Directors where space is available
- Volunteers may choose to volunteer as an individual or decide to team-teach with a co-worker

Volunteer Component

JA's unique approach allows both individual and organization-wide volunteers from the community to deliver our curriculum while sharing their professional experiences with students. Classroom volunteers transform the key concepts of our lessons into a relatable message that inspires and empowers students to believe in themselves, showing them they can make a difference in the world.

Local JA Area staff provide:

- Hands-on volunteer training
- JA program materials
- Access to resources

JA area staff provide ongoing support for JA volunteers throughout the experience.

Nationally, Junior Achievement reaches over three million students per year in 127,817 classrooms and after-school locations. JA programs are taught by volunteers in inner cities, suburbs, and rural areas throughout the United States, by over 100 area offices in all 50 states.
